

We Are Scientists "Selective Memory"

Visit "[Selective Memory](#)" on [MotoLyrics.com](#)

I'm wakin' up past noon
I'm never really sure what day it is
I'm wishin' I was you
I'm wishin' I was anybody else

I'm buried underneath
These opportunities
Selective memories
well I'll bet you forget about me

I'm tired of all the pain
I'm tired of the problems that I've caused
I'm tired of all the pains
I should've gone instead of stayin' home

I'm buried underneath
These opportunities
Selective memories
well I'll bet you forget about me

Well if there was a problem I can solve I just forget
about it
I've always had everything I wanted and never doubted
Then I'd simply have my cake and eat it too
But lately something tells me I've been fooled
well I'll bet you forget about me

I'm buried underneath
These opportunities
Selective memories
well I'll bet you forget about me

I'm buried underneath
These opportunities
Selective memories
well I'll bet you forget about me
I'll bet you forget about me x4
