One, two, three, four, five
We are young and proud
Sitting at the edge of the world
To see the fireworks

Take it easy now
Cause my rules have come
Let me handle this affair
Oh, the countdown is on

Always breaking your heart
Nothing is gonna change our friends
I think that here well be safe
Yer or no
Decide cause it ain't so hard

One, two, three, four, five
We are far from home
Everybody wants to go
To see the fashion show

Take it easy now
We could change our lives
Maybe I should call her up
To see the fireworks

Always breaking your heart
Nothing is gonna change our friends
I think that here well be safe
Yer or no
Decide cause it ain't so hard

This life's new great movement
Please just get out of the way
That's you said
They made it complicated
Then at last
We only left and forgave them all
