I remember the first time I dated you  
I was ready and willing to give my heart to you  
I was ready to go anywhere with you but I wasn't ready  
the day I lost you  
I was ready to buy a ring for you I was ready and willing  
to spend my life with you  
I was ready to go all the way with you but I wasn't ready  
the day I lost you  
Someone came along that you loved better  
Just when I thought I had your love forever  
I was ready from the first time I dated you  
But I wasn't ready the day I lost you  
[ steel ]  
But I wasn't ready the day I lost you
