"Rocket To Nowhere"

Visit "[Rocket To Nowhere](#)" on MotoLyrics.com

My home-made rocket is right on course
It's been light-years since I climbed on board
Life on Earth, I couldn't stand it
I had to blast right off of that planet
On a rocket... to nowhere

This galaxy's too small for me
There's brave new worlds that I must see
Well now life on Earth was a total waste
I don't care if I'm lost in space
I'm on a rocket... to nowhere

Rocket... to nowhere
Rocket... to nowhere
If you see me up in your sky
Don't bother wavin', I'm gone, bye-bye
I'm on a rocket... to nowhere
Rocket

I got women on every planet
There's one named Xena, one named Janet
Well now, each one holds me in a different way
But never tight enough to make me stay
I'm on a rocket... to nowhere

Rocket... to nowhere
Rocket... to nowhere
If you see me up in your sky
Don't bother wavin', 'cause I'm gone, bye-bye
I'm on a rocket... to nowhere
I'm on a rocket... to nowhere

Ten... Nine... Eight... Seven... Six
Five... Four... Three... Two... One... Ignition
BLAST OFF!

Take me to your leader
