I see the lightning almost every day  
I've stopped pretending its a bird of prey

my little brother's got a strange disease  
he gives a name to everything he sees

We heard the thunder on your daddy's farm  
your momma said it was a fire alarm  
the neighbors heard it and they started to run  
we were deciding what to name our son  
lets call that son of a bitch

The years is  $\hat{A}$   $\hat{A}$   $\hat{A}$  (shout out any year that  
comes into your head, its all the dark
