Title: Pretty Is As Pretty Does

Pretty is as pretty does
I know what it means because
I let her do me like she does
Now I'm pretty blue

Time is gonna help I know
And there's no place else to go
So I'll stay and see the show
I'll leave when it's through

When the joke's on you
It makes it kind of hard to laugh
Ain't nobody wants your autograph

I could help you out I guess
But I'd probably make a mess
I don't feel too good myself
So why listen to me

Pretty is as pretty does
You could go down for that buzz
Don't confuse what is with what was
What's now is history

Love is blind, you only see
What you want to see
Don't you know that beauty's just skin deep

Pretty is as pretty does
I know what it means because
I let her do me like she does
Now I'm pretty blue
