Title: Hungry for love

I'm so hungry, so hungry for love
I'm so hungry, so hungry for love
what's the use of worry'in
you don't care about the mood I'm in

I just want to spend every week
every day, every hour with you
oh, won't you change your mind and be a little kind
I'm so hungry for love

just remember and Yu'll feel so glad
there were times when you made me feel bad
what's the use of worryin'
you don't care about the mood I'm in

I just want to spend every week
every day, every hour with you
oh, won't you change your mind and be a little kind
I'm so hungry for love

what's the use of worry'in
you don't care about the mood I'm in

I just want to spend every week
every day, every hour with you
oh, won't you change your mind and be a little kind
I'm so hungry for love

so hungry for love
so hungry for love
