Can you forgive me  
Just take me back  
I promise to be a man of honor  
Is there still a chance  
That we can find tomorrow  
Forget the sorrow  
Live for today  
Because yesterday's come and gone  
Now I know better  
I hope you can stand a little stormy weather  
After all is said and done  
Through all the heartache  
Through all the fun  
You are the only one  
I'll ever love  
And I'll work hard to make you see  
There's still a chance girl if you believe  
You're the only one I'll ever love  
Don't walk away baby...please  
I'm begging you  
I'm down on my knees  
I know I hurt you  
But I know you know  
I never will desert you baby  
Different strokes for different folks  
Your love means the most  
Yes, I'm your man  
Love you the best I can  
Again and again and again  
After all is said and done  
Through all the heartache  
Through all the fun  
You are the only one  
I'll ever love  
And I'll work hard to make you see  
There's still a chance girl if you believe  
You're the only one I'll ever love
