Who will take care of me  
When you are gone away  
I will have nothing left  
But your memory.

And I wish that we could say  
The things we want to say when we are far, so far  
Away, dear.

I don't want anything without you.

Night comes, the night is here  
My thoughts are clear now  
But, who will take care of me  
When you are gone away.

You took away my fears  
The tears are gone now  
But who will take care of me  
When you are gone away.
