Am I still breathing?

Am I still breathing?

I've stumbled over every obstacle

That has come before me

But at least I made it past

I've been fumbling over every word I wanted to write

But I've but those insecurities in the past

It's so much easier to leave my mistakes behind me

If I acknowledge that I've made them

Am I still breathing?

Then nothing is as bad as it seems

So just keep breathing, and keep calm, keep calm

The only real control we have is over ourselves

So let's get over it

That we can't and we won't control anything else

You can't lose something you never had

So why miss the memory of something didn't exist?

Everything is all right, just keep calm, keep calm

But everything is all right, just keep calm, keep calm

Am I still breathing?

Then nothing is as bad as it seems

So just keep breathing, and keep calm, keep calm

The only real control we have is over ourselves

So let's get over it

That we can't and we won't control anything else

Is everything all right?

Keep calm

Am I still breathing?

Keep calm

Don't let yourself think that you control

Anything besides the way you live your life

Everything is all right

Just keep calm, just keep calm

Everything is all right

Just keep calm, just keep calm

Everything is all right

Everything is all right
Just keep calm, just keep calm
But everything is all right
Just keep calm, just keep calm

Am I still breathing?
Then nothing is as bad as it seems
So just keep breathing, and keep calm, keep calm
The only real control we have is over ourselves
So let's get over it
That we can't and we won't control anything else
So just keep breathing
