"Let The Moment Linger"

Visit "[Let The Moment Linger](#)" on MotoLyrics.com

Time moves too quickly
When I find myself with you
And these fragile minutes
Can be over much too soon
Moments like this one
Never last us long enough
And feelings are fleeting
So please just

Let the moment linger, just please
Let the moment linger...
Don't let it go, don't let it go

Sighs seal the spaces
Between the thoughts that go unsaid
And the air is heavy
With the blending of our breath
Your eyes say so much
But you never speak a word
And the silence kills me
â€It kills me
