We Take it  
We Make it

I'm projecting and reflecting desire  
For you to come into my life  
Parades of this day with love shining all  
For me and you to get along

It's like running away with wind in our face it's like  
flying  
Flying, and you and I are open wide  
It's like running away with the wind in our face it's like  
flying  
Flying, and you and I are open wide.

Ahhhh, Ahhhhhh

I feel so excited and delighted today  
Cause you decided to be in my life

It's like running away with the wind in our face  
It's like flying, and you and I are open wide

Ahhhh, Ahhhhhh

I get around the world upon your freeways  
It's true, will you let it go  
I get around the world upon your freeways  
It's true, will you let it go
