We close our eyes  
And sometimes we fake it  
With everyday we try a little harder, its true

Well some will try, and some will shake it  
But everyday becomes a little harder for you

So justify all your phases  
When were human, were always guessing  
Justify all your faces  
The wonder grows when were changing

Along the time we begin  
Is when the fire is setting in  
Watch us explode

She dreams of lights and going places  
Shes feeling brave, shes gonna make it home  
The rolling skies, her circling wonder  
Her swinging dress dances all alone

So justify all your phases  
When were human were always guessing  
Justify all your phases  
The wonder grows when were changing

Along the time we begin  
Is when the fire is setting in

Badadadadadada  
Badadadadadada

Justify all your phases  
Keep the world always guessing  
Around the time we begin  
Is when the fire is setting in  
Watch us explode, explode, explode, explode...
