Love gets inside of you  
It makes me invisible  
And I will continue to hang

on super love, a sonic bloom  
A total emotionless excuse  
I can't believe it happened to me  
The magic's in my heart, believe me

Love gets inside of you  
It makes me invisible  
And I will continue to hang

on super love, a sonic bloom  
A total emotionless excuse  
I can't believe it happened to me  
The magic's in my heart, believe me (I do)

Rushing through my electrical phase  
I found a place to hide when you're away  
Almost caught myself a breath  
I touched your hand, I lost myself instead

I wanna be just as good  
I wanna make it better  
I wanna see you sideways  
I wanna make it better (Love)

When love gets inside of you,  
It makes me invincible  
And I can't believe this happened to me
