Just before you go today  
There's something that I've got to say  
Well you asked me what was wrong  
And I didn't want to tell you  
You believed me when I said I tried  
But oh, Carolyn, I lied  
And its gone on far too long  
And I never tried to help you  
But don't wait up for me  
Just don't wait up for me  
It isn't quite the way you think  
How low do you suppose I'd sink?  
We can't bear to be apart  
Oh I'm sorry that I said that  
But come on now let's not pretend  
We both knew we were near the end  
I don't want to break your heart  
But we just can't turn the clock back  
But don't wait up for me  
Just don't wait up for me
