And now I've kissed you, I'll show you how I've missed  
you

Before you even say a word, I already heard

No, someone told me, but don't speak now just hold  
me

You wandered up a cul-de-sac, and now you've come  
back

So did you leave him? I'm sure you didn't deceive him

Just the same you're here today, wanting to stay

Have I upset you? Well I tried hard to forget you

Now you're saying "Look, I came, let's try again..."

I'll make you laugh, when you see this photograph

It's not from that day, I threw all those away

It's just some boy, probably dressed in corduroy

He grew up fast but you've not changed at all

How can I trust you. No, I'm not trying to rush you

But I was here when you ran; I don't think I can

I won't desert her and I'm not about to hurt her

I worshipped you once before, and you slammed the  
door

I'll make you laugh, when you see this photograph

It's not from that day, I threw all those away

It's just some boy, probably dressed in corduroy

He grew up fast but you've not changed at all
