"Silver Shorts"

She's not talking to me now

Not since we had our row

But I don't care what lies ahead

I just can't get out of your bed

I know what I said

I just changed my mind

I can't leave you behind

Just keep on doing what you were

Before I mentioned her

Wear your silver shorts today

And I won't go away

The thoughts you put inside my head

Yes, I'll stay here instead

I know what I said

I just changed my mind

I can't leave you behind

Just keep on doing what you were

Before I mentioned her
