Wide Open Road - WPA

Well the drums rolled off in my forehead

Guns went off in my chest

Remember carrying the baby just for you

Crying in the wilderness

I lost track of my friends, I lost my kin

Cut them off as limbs

I drove out over the flatland

Hunting down you and him

The sky was big and empty

My chest filled to explode

I yelled my insides out at the sun

At the wide open road

It's a wide open road, It's a wide open road

So how do you think it feels

Sleeping by yourself?

When the one you love, the one you love

Is with someone else

Then it's a wide open road

It's a wide open road

And now you can go any place

That you want to go

I wake up in the morning

Thinking I'm still by your side

I reach out just to touch you

Then I realise

It's a wide open road

It's a wide open road

So how do you think it feels

Sleeping by yourself?  
When the one you love, the one you love  
Is with someone else

I wake up in the morning  
Thinking I'm still by your side  
I reach out just to touch you  
Then I realise

It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road  
It's a wide open road

And now you can go any place that you want to go
