[oh on the first day  
i saw your face  
and i think i fell  
oh  
i fell completely

do do do do

and on the second day  
in a stupid way  
i tried to tell you  
i cared but then you laughed  
and turned away

do do do do

all you know it's so good  
all you know it's so nice  
when you're falling  
when you're falling down  
completely

well on the third day  
we went to that movie place  
and we, we brought in someone  
it was more than okay

do do do do

well on the fourth day  
oh i was late  
i'm sorry  
foxy brown  
it won't happen again

do do do do

all you know it's so good  
all you know it's so nice  
when you're falling  
when you're falling down

completely

oh on the fifth day  
you said some things  
i wanna hear it  
again, again, and again

do do do do

well on the sixth day  
we had our way  
we lived happily ever after  
all at the end

do do do do

all you know it's so good  
all you know it's so nice  
when you're falling  
when you're falling down  
completely  
completely  
completely  
completely]
