They don't mind, take our wallets

Tell us how you're gonna steal our time

(We shot the world)

'Cause you know you'll never tear us apart

(We shot the world)

Out on our own, we hunt for food

We keep our guns planted by our side

(We shot the world)

'Cause I don't think we're ever gonna make it back

(We shot the world)

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

Call me crazy if you want

It's just a matter of a little crime

(We shot the world)

I'm trying hard not to use my poison pen

(We shot the world)

Chase you away

Feel the force of a thousand lonely nursery rhymes

(We shot the world)

'Cause you're never gonna bury us alive

(We shot the world)

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world

We shot the world
