I hate to be labeled as paranoiac or dramatic
But reality is worse than a hore for the romantics
devilish ways lead to .. I am trying to keep my sanity ..
I have been looking in the mirror
A little bit deeper trying to get the picture clearer
But I am scared of what I am seeing
.. for every wrinkle my face is a living monument
Memos of my travels and bales and my
accomplishments
I never bee mistaken for .. I am ion some .. shit
..real talk niggers can fade them .. interpretations ..
As I channel black angels light .. on my face 99 ,
Turn and fight our brother disrespect your mother
Selling drugs to your mother
.. what I discover you nigger ..
Remember government don't loves us

.. into the heat I have been .. by the street
To add stream to the hit .. my mission
Is to tackle the ignorant .. resurrect the light .. bring the
devil ..
.. will the devil bring illusion I .
. bring confusion .. a rebel without a pause
.. in the mean time we gotta stay hey ,

Thanks to feel
