Wide Open Road - WPA

Well the drums rolled off in my forehead
Guns went off in my chest
Remember carrying the baby just for you
Crying in the wilderness
I lost track of my friends, I lost my kin
Cut them off as limbs
I drove out over the flatland
hunting down you and him

The sky was big and empty
My chest filled to explode
I yelled my insides out at the sun
At the wide open road

It's a wide open road, It's a wide open road

So how do you think it feels
Sleeping by yourself?
When the one you love, the one you love
Is with someone else

Then it's a wide open road
It's a wide open road
And now you can go any place
That you want to go
I wake up in the morning
Thinking I'm still by your side
I reach out just to touch you
Then I realise

It's a wide open road
It's a wide open road

So how do you think it feels
Sleeping by yourself?
When the one you love, the one you love
Is with someone else

I wake up in the morning
Thinking I'm still by your side
I reach out just to touch you

Then I realise
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road
It's a wide open road

and now you can go any place that you want to go
