There's something underneath your bed,
Pull your sheets up over your head.
You here something, what was that?
Afraid of things that go bump in the night.
The candle in the pumkin is the only light,
So get ready for the fright of your life, yeah.

Baby let me sing you a scary song
Put on your halloween mask and sing along
It's the creature feature babyform dust 'till dawn.
Baby let me sing you a scary song.

He walks tall and give me the butcher knife
The boogie man a only wants to take your life.
You kill him off, he'll ojust come right back, in part 2

Baby let me sing you a scary song
Put on your halloween mask and sing along
It's the creature feature baby form dust 'till dawn.
Baby let me sing you a scary song. (yeah)

Baby let me sing you a scary song
Put on your halloween mask and sing along
It's the creature feature baby form dust 'till dawn.
Baby let me sing you a scary song
