You dont know me

But judge me the same

See my skin

Cut it bleeds

Over you.

*Its in the way that they cover me

Its in he way that they run to me

Turn your eyes away from me

I will live again

I will live again

Again

Fear me now I reign for you

See the sky the lies

Up in you *

As she walks by the site

Fear falls around her

He opens his eyes

The peace inside will free me forever

Forever
