Can't find a way to stop the pain
Wrackin' my brain is workin' overtime
While I'm asleep inside your lab
You drain my blood and watch it overflow again
You're not my friend
You're a wicked enemy of who I am

Time for me to exit, I don't want to be with you
I don't want to spend my life with your emotional abuse
Time to make an exit, gotta get away from you
I spend every fucking day with you, telling me what to
do, oh no no no
it's been swell but now it's time for me to go

You, using your scientific mind
You take a plunger to my head and drain my thoughts
The vast selection of your moods
to get close to you, I need an armored all terrain
you're so insane
As deep as hell, as high as heaven everyday

Time for me to exit, I don't want to be with you
I don't want to spend my life with your emotional abuse
Time to make an exit, gotta get away from you
I spend every fucking day with you, telling me what to
do, oh no no no
it's been swell but now it's time for me to go

Watch me now I'm crawling to my escape
And I don't care who's falling apart
It's too late

Call Monty Hall let's make a deal
Been on the bus now ever since you took the wheel
I cannot feel
This is where I'm getting off to stop and heal

Time to make an exit, gotta get away from you
I don't want to spend my life with your emotional abuse
Time to make an exit, gotta get away from you
I've spent every fucking day with you, telling me what

to do, and no no
more

I can't stand it, I can't stand it anymore
everyday and night you seem to ask for more
I can't stand it, I can't stand it anymore
