[Erick Sermon]

here we go cruisin, me and my boys rollin four deep

in the A-U streets, seein who we can meet

Beep beep, a crew of girls in their green Cherokee  
Screamin, "That's Erick G," my boys gettin happy B  
Err, ERRR, the girls made a U-turn  
Pulled up beside me, tires smellin burned (yea yea)  
I scoped the whole car yo before I spoke  
to see which one was dope before I start actin loc  
That's crazy, "How you doin baby? The one  
with the daisies, short top with the paisleys  
What's your name? Oh they call you Lucky?"  
Had Child's Play on my mind but none of us was Chucky  
"So what are you doin? Follow me to my crib"  
I had the girls trailin, had my system wailin (boom  
boom)  
Drove off, and my boys screamin loud  
Happy for the hoes because they wasn't crows (word  
me up)  
We argued, on who gets who  
The first pick is mine, respect from my crew  
I took the freaky deaky one who was drivin  
She looked like she was widdit, I definitely want to hit it  
(word em up) Jeff screamed, "We're goin out for the  
cause  
and when we get there, we're goin straight for the  
drawers"  
Dude - they was bangin, I must try not to keep them  
hangin  
Yeah - but I find myself singin  
Like that y'all

The girls look so good..

[Erick Sermon]

On the way home, damn I almost crashed with my friends

Four girls in two drop-top BM's

Man it must be a dream, I must be on the wrong planet

Four girls, lookin like Janet (yea yea)

+That's the Way Love Goes+ when you're clockin hoes

Nobody knows, but my face expression shows (yea yea)

I was wide open, man I couldn't believe it

If the girl asked me for my truck, I swear she can keep

it

(word em up) On the Pharcyde, the girls +Passed Me  
By+

The ones who was trailin me, goin in the Cherokee

But fuck em, I didn't care anymore

Cause these girls was the flyest bitches I ever saw

(word em up) So me and my boys approached to the  
cars

Stepped out to the females, lookin like some stars  
(word em up yo)

Hi, my name is Erick, whassup, how y'all doin?

Just coolin like Levert in y'all tennis skirts (word em up)

How bout y'all comin to my crib and take a swim

and maybe darken up the skins (yeah)

Are you widdit? C'mon, follow me to hook up my  
friends

with your friends, then we all can be friends, WORD -  
yeah

Go on the way, I'm jumpin on the highway

Mad traffic and shit, because it was a Friday

I check my rearview, lookin right behind me

Girls in the BM, lookin kinda fine see

My mind playin tricks on me already

Someone turned off the lights, yo it musta been Teddy

Oh somebody tell me what's happenin

I'm caught up, this ain't the way me and my boys was  
brought up

(word em up) Maybe I'm gettin excited - NOT

There's no doubt in my mind that that girl is hot

Yeah - and matter of fact, she got the BLAZIN looks

Make me wanna sing this hook

Peace to my man Brent

The girls look so good..
