I'm goin' crazy - trying to keep you sane
Taking my prescriptions, and forging my name

I was happy this morning
You finally got yourself dressed
Eating raw bacon
It's OK, I was still impressed

I love you - even if you don't
You've got your knife up to my throat
Why do you want to see me bleed?

Rooting through the garbage
For treasures in the trash pile
Seeing my expression
Would always make you smile

Please don't touch my phone book
My friends are getting pissed off
Wake 'em in the morning
Acting like a jerk off

I love you - even if you don't
You've got your knife up to my throat
Why do you want to see me bleed?

(guitar solo)

I love you - even if you don't
You've got your knife up to my throat
Why do you want to see me bleed?
