"I'll Miss You"

Visit "[I'll Miss You](#)" on MotoLyrics.com

It could rain for a 1000 days
Or something I dont know
Look to the sun and we're having fun
Besides the river flow
You are doing this and your doing that
Working all the time
Tonite you'll call me on the phone
Youve got a worried mind
And when you leave you'll go away
Gone to stay
Dont feel so bad
It was nice what we had
And you'll be glad
Ill miss you
Theres a moon and its bright tonite
The summers gone away
Stop the sweat and Ill feel alright
You know its I like it this way
Your packing stuff for your big big move
In just a couple of days
Youll be off on your big big cruise
Across the U.S.A
Chorus
