Oh little birdy, oh little birdy

I saw the little birdy sing  
He sang with glee and everything  
He sang for spring and sang for me  
And everything was so happy

I don't know why I want to fly  
Try to sigh, try to fly, made a tie  
And then it tried to get me down  
I want to buy make me fly  
Get me high, so I can try  
And then I try  
The little birdy start to cry so happy  
Little birdy why so happy  
Little birdy why so happy

Can I touch your birdy wing?  
And fly and hop and everything  
Can the sun reach down on us  
And through the heavens only we would sing

I want the birdy make me laugh  
See the birdy make me laugh  
Take a little birdy bath  
I don't know why he got me high  
I don't know why, I don't know why  
It cannot die, it sang too high  
And all the birds on the wing sang so together

[repeat all]

So together, so together
