"Tender Situation"

Wrote this song called "Tender Situation",
And it somehow just put everything back together

State this ache as the final break
Tender situation - create a good illusion
Feel the grip of your salvation
This is indeed a tender situation

Make a move man, state your case
Taste the waste man, taste the waste
What is your place in my glorification
This is indeed a tender situation

Get off the pot man, shake and bake
Taste the waste boy, taste the waste
Pump it up or stray from that old station
This is indeed a tender situation

Tender situation, tender situation, tender situation

[repeat all]
