

Weekend Players "Through The Trees"

Visit "[Through The Trees](#)" on MotoLyrics.com

The music plays...
The music plays...
The morning sun
Lights off my spine.

The music plays
Plays a distant lullaby.
La la la la la la la la la la
And as the night begins to fade
Some golden memories are made

I take this time forever mine
The memory forever in my mind
I take with me this melody
To keep the clouds away from time to time

And through the trees
The shadows long
And rhythm sees
Me as daylight sings her song
I'm underneath a blue blue sky
I'm all alone myself and I

I take this time forever mine
The memory forever in my mind
I take with me this melody
To keep the clouds away from time to time

Keep the clouds away
Keep the clouds away
To keep the clouds away from time to time
I take with me this melody
To keep the clouds away from time to time
