Baby what have I done  
Gone and left you, all alone  
It's hard for me to sing this song  
We've been together for so long  
I think I know what my soul's got to say  
And it won't hurt as bad, someday

It's gonna be alright, baby  
It's gonna be alright, love  
And if the mist ever lets the sun through  
I'll just hope I did the right thing for me and you

Guess I'm ruled by my heart  
Built a life and I tore it all apart  
It's just not our time  
But you'll find a new love, and you'll be fine  
So many dark and lonely nights  
But I believe someday I'll see the light

It's gonna be alright, baby  
It's gonna be alright, love  
And if the mist ever lets the sun through  
I'll just hope I did the right thing for me and you  
[repeat]

For me and you
