How would you feel if I took you away
To a place I know, a place where we could stay
Called Joppa Road, a pretty place I know
Where we can go called Joppa Road

The things I feel on Joppa Road
Can make me stay and make me go
This old road where I long to go
Called Joppa Road where we can go

Put your best dress on, there's a place I know
Where we can go called Joppa Road
It's a little ways where the sun shines down
Where we drive real slow on Joppa Road
Joppa Road, a pretty place I know
Where we can go called Joppa Road

Hey, yo bro, that's a dude I know
Works on Joppa Road at the Sunoco
If we drive by slow, with the top down low
We'll heel and toe on Joppa Road

How would you feel if I took you away
To a place I know, a place where we could stay
Called Joppa Road, a pretty place I know
Where we can go called Joppa Road

It's a little ways where the sun shines down
Where we drive real slow on Joppa Road
On Joppa Road, Joppa Road

Baby, you look great today

How would you feel if I took you away
To a place I know, a place where we could stay
Called Joppa Road, a pretty place I know
Where we can go called Joppa Road
