Well take me away to some other land
Yeah, I gotta get away from that girl before I go crazy
She took my love away and she took it to another man
Now I gotta get away from that girl before I go crazy

Take me away to some other land
Yeah, I gotta get away from that girl before I go crazy
She took my love away she took it to another man
Now I gotta get away from that girl before I go crazy

Take me away to some other land
Yeah, I gotta get away from that girl before I go crazy
Well she took my love away she took it to another man
And now I gotta get away from that girl before I go
crazy

Take me, well take me away

Gotta get away, crazy
She took my love away
Now I gotta get away

Take me away to some other land
I gotta get away from that girl before she drives me
crazy
She took my love away she took it to another man
I gotta get away from that girl before she drives me
crazy
