Well, I know that life is hard;  
I'll make it alright.  
And I know how dark you get  
Late in the night.

I'm gonna add my effort to you.  
I'm gonna add my effort to you  
- try and love you.

And you feel wronged by everything  
that hasn't been right.  
Why can't we sit and watch TV  
till late in the night?

I'm gonna add my effort to you.  
I'm gonna add my effort to you  
- try and love you.  
Oh, don't take it away, oo-oh,  
Don't take it away.  
And when it's dark you say it is  
because there's no light.  
Though it's not, I'll say it is;  
I'll say it's alright.

I'm gonna add my effort to you,  
I'm gonna add my effort to you  
- try and love you.
