

Weeping Willows "Hold Me"

I keep
I keep friends away from me
Don't say
Don't say you're in love with me
'cause it hurts
As a child I learned to hide.
Hold me for a while
Then Im gonna have to leave
Life is always black and white
When you see through eyes of steel.
Anger
Anger is a part of me
Ive been
Loyal to stupidity
I need
Something solid so desperately.
Hold me for a while
Then Im gonna have to leave
I have filled my head with hate
Right from the start it was too late
Hold me for a while
Then Im gonna have to leave
Disaster flirts with me
I feel alive when knuckles bleed.
