You keep saying that you're stuck
Left outside without a key
But that door was never locked
You can always turn, turn to me
I left a trace for you to find
But you think you're left behind

Oh, if you know what love is
If you know what love is
If you know what love is
Then you'll understand

A million days, a million nights
You can never be replaced
You're invited to my life
Only you can find that special trace
I left a clue for you to see
All you have to do is choose me

Oh, if you know what love is
If you know what love is
If you know what love is

I am here for you when the wind blows
If you want me to
Don't you feel the same way about me?
When you're deep down in trouble
I will come for you
I will listen when your heart needs to speak

Oh, if you know what love is

Oh, if you know what love is
If you know what love is
If you know what love is
Then you'll understand
Then you'll understand
