You look so happy when you sleep
Calm and safe and soft and free
You are so sweet and you're unique
From your tousled hair to your feet

I've never told you how I feel
But I spell your name L.O.V.E.

The stars in the sky
Are my witness tonight
As you lie by my side
I've made my choice
The mid winter moon
Is my witness tonight
As you sleep by my side
I've made my choice
For life

I don't want to move too fast
Cause I really want this fling to last

I've never told you how I feel
But I spell your name L.O.V.E.

The stars in the sky
Are my witness tonight
As you lie by my side
I've made my choice
The mid winter moon
Is my witness tonight
As you sleep by my side
I've made my choice
For life
