Class of 1988  
Never thought you'd graduate  
Playin' with your guns all day

If only they could see you now  
That you've learned to shoot so well  
They wouldn't laugh that way

(chorus)  
Wayne, you know it's true  
There's nothing you can do  
So put the guns away  
Who cares what's wrong or right?  
So please give up the fight  
And put them guns away

All of your freinds are through  
They've given up what they tried to do  
See now how happy they are

Each with a new lease on life  
A brand new car and a milage wife  
Put down them guns and fall into line

(Chorus)

All your friends are through  
There's nothing you can do  
So put them guns away

Do do do do do do do do....

All your friends are through  
There's nothing you can do  
So them guns away

(Chorus)
