I'm watching and waiting  
Disintegrating  
I know that you hear me  
If you could come near me

But no one can save me now  
I'm lost, just like a cow  
Madness burning inside my brain  
My brain

Falling to pieces  
Breaking the leases  
I know that you hear me  
If you could come near me

But no one can save me now  
I'm lost, just like a cow  
Madness burning inside my brain  
My brain

I know that you hear me  
If you could come near me

But no one can save me now  
I'm lost, just like a cow  
Madness burning inside my brain

No one can save me now  
I'm lost, just like a cow  
Madness burning inside my brain  
My brain

Ooooooooooooo
