"Queen Of Earth"

Queen of earth, won't you stand by my side?
We've both waited for the whole of our lives
Come with me, we can build extacy

Never once, have I felt quite this way
Feel my heartbeat, it's just slipping away
Want to live in my hole in the ground

I'm over and done, baby
I'm over and done
I never want to be alone
I never want to be alone

Want to live in my hole in the ground

I'm over and done, baby
I'm over and done
I never want to be alone
I never want to be alone
