Say it again
I know I heard you right
I've been lying awake at night
Thinking about 3 words you said to me
I know it's hard for you
Sometimes you gotta let the feeling through
I wanna know exactly how you feel (oh yeah)

I've tried to be patient
And give you a little more time
Now I need to be sure
What's on your mind

- Chorus -
Say it again
Say yeah
Say the words I heard you whisper
Say it again
Say yeah
When last night we were together
Lying next to me, you said to me
Say it
Say it again

I knew right from the start
You've been living with a broken heart
But baby I knew it takes some time to heal
But now I must confess
The way you fill me with happiness
Thinking we could be starting something real

I've tried to be patient
And give you a little more time
Now I need to be sure
What's on your mind

- Chorus -
Say it again
Say yeah
Say the words i heard you whisper
Say it again

Say yeah
When last night we were together
Lying next to me, you said to me
Say it
Say it again

Now I just need to sure
That you're mine forever
All I'm asking you for
Is to tell me whether
I should be trusting in you
Tell me if the words you whispered were true
Say it say it say it say it say it

- Chorus -
Say it again
Say yeah
Say the words i heard you whisper
Say it again
Say yeah
When last night we were together
Lying next to me, you said to me
Say it
Say it again
(repeat)
