She says your money's safe

You needn't keep your head down

Who's kidding who?

Her picture's all over town

I always knew that she was on the run

I read the paper and it said so

I know you like them to be troublesome

Take it to the maximum

She's a murderess, murderer

She likes to go for the jugular

Murderess, murderer

That woman of yours is a killer

I heard his breath escape

She left the gun on the floor

He left his key with me

I hadn't been there before

I always knew that she was on the run

I read the paper and it said so

I know you like them to be troublesome

Take it to the maximum

She's a murderess, murderer

She likes to go for the jugular
Murderess, murderer
That woman of yours is a killer
She says she's innocent
She says she's your baby face
Who's kidding who?
Your things are in a suitcase
I always knew that she was on the run
I read the paper and it said so
I know you like them to be troublesome
Take it to the maximum
She's a murderess, murderer
She likes to go for the jugular
Murderess, murderer
That woman of yours is a killer
She's a murderess, murderer
She likes to go for the jugular
Murderess, murderer
She likes to go for the jugular
Murderess, murderer
She likes to go for the jugular
Murderess, murderer
That woman of yours is a killer
