Come on and do it to me,
come on and give it to me.
Come on and do it to me, babe,
come on and make me feel free
Come on and make love to me,
your love is pure ecstasy.
I want to feel like a queen,
come on and answer my dream.

So, come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it to me....

My body feels hot inside,
come on and take me for a ride.
Oh baby please don't hesitate,
oh baby please don't make me wait.
Nobody does it like you,
you really know what to do.
Let's do it upside down,
let's come together around.

So, come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it to me....

Where'd you learn to funk like that, c'est bon (4x)
Where'd you learn to funk like that, c'est bon (do it, do
it, do it to me, do it to me) (8x)
Do it, do it, do it to me, do it to me (4x)

Come on and do it to me,
come on and give it to me.

Come on and do it to me, babe,
come on and make me feel free
Come on and make love to me,
your love is pure ecstasy.
I want to feel like a queen,
come on and answer my dream.

So, come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it to me....

My body feels hot inside,
come on and take me for a ride.
Oh baby please don't hesitate,
oh baby please don't make me wait.
Nobody does it like you,

So, come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it,
come on and do it to me....

(do it, do it, do it to me, do it to me) (12x)
