"Release The Men"

Bring up something different
Bring us a new sin
Watch where you walk though
That's where the mans been

Wipe off those smiles
Please try again
Conclusion hypnotized
Release the men

(Pre-Chorus)
Go down, down, up and down

Color the circle
Come save some lives
Watch where you walk though
Most people die

Wipe off those smiles
Gather some friends
It's time to go
Release the men

(Pre-Chorus)
Go down, up and down

(Chorus)
Straight from the seedling of the last illusion
Looking quite nice but say goodbye, goodbye
The difference lies within the mass confusion
So all aboard and say goodbye, goodbye
So all aboard and say goodbye, goodbye
So all aboard

Bring up something different
goodbye
Bring us a new sin
goodbye
Watch where you walk though
That's where the mans been

Wipe off those smiles
Please try again
Conclusion hypnotized
Release the men

(Pre-Chorus)
Go down, up and down

(Chorus)
Straight from the seedling of the last illusion
Looking quite nice but say goodbye, goodbye
The difference lies within the mass confusion
So all aboard and say goodbye, GOODBYE
