I never really thought to say
Whenever you set free your devil smile on me, I melt
It's been a long time between
When you first let me in, got underneath my skin

It's an echoing, empty room
'Till your love pours in, fills it to the brim, oh
I never felt the hook go in
Until you came around and broke me right back down

There's just one thing that I failed to tell you
We're wishing on the same moon and stars above you
We're wishing on the same moon
We're wishing on the same moon

Hear me now, I'm callin' out for you
Pleadin' for your love
You're falling from my view and there's nothing I can
do
There's nothing I can do...
Nothing I can do

I'm waitin' in the afternoon
For the sun to set, let the night back in, oh
It's when I feel close to you
When the stars, they swoon and bring the night-time
bloom

There's just one thing that I failed to tell you
We're wishing on the same moon and stars above you
We're wishing on the same moon
We're wishing on the same moon
There's just one thing
There's just one thing
There's just one...
We're wishing on the same moon
