When I was young
I collected my heroes
When I was young
I was a star amongst zeros
But then I grew up
And now I'm heading up river
I'm gonna cover myself in mud, mud
Yeah I'mma deliver

Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having

When I was young
Yeah I used to believe it
That the stars in the night sky were suns
That refused to sing
And then I sank

Never can believe how much fun we're having
Can't believe how much fun we're having
Never can believe how much fun we're having x3
