Baby, tell me what's happened to us,  
Were the words finally spoken,  
I wished for would never be heard,  
Cause my head hurts... And my heart hurts so much,

You, you've got your head in your hands,  
And you don't even care if you're taking it like a man,  
No you're crying and I'm crying with you,

So why are we standing and letting our sweet love die?  
When we've got the power to resurrect this feeling,  
Yeah, Yeah

We could bring it back,  
Bring it back,  
If we wanted to,  
Oh if we wanted to

Baby, we both know we've been her before,  
Oh, we're fighting a battle we've never been able to,  
And I'm loosing you and you're, you're loosing me,  
This time... This time...

We could bring it back,  
Bring it back,  
If we wanted to,  
Oh if we wanted to.

You, you've got your head in your hands,  
And you don't even care if you're taking it,  
Like a man.
