Sit with me
Come and play
I need you so near
Stay awhile for a day
Maybe two have no fear
What I am is not all good
It's not all bad it's okay
Time has come wish we could
Get it back it's too late

And I miss you the most
And I miss you the most

Sing to me once again
In your room like old days
Speak to me it depends
On how you do it all ways
Bring me back little smiles
Funny ways you speak to me
Bring me back all your wiles
Whimsical fancies

And I miss you the most
And I miss you the most

And I miss you the most
And I miss you the most
