Here we go again  
Seems i'm off to rambling words i know of you again  
Here we go again  
Seems i'm back to looking forward at the end again  
Here it comes again  
It's like something i don't want but i don't want to end  
So i face another day without you here  
Finding comfort in the words i know of you again  
You see i go on and on and on and on and on  
Counting backwards from one hundred  
Like years you've been gone  
Never reaching one  
Here i go again  
Seems i'm back to rambling words i know of you again  
When i think that i've got something new to say  
I remember it's the same thing i said yesterday  
You see i go on and on and on and on and on  
Counting backwards from one hundred  
Like years you've been gone  
Never reaching one
